Subject: Old Sirens

Joe,

I hope all is well in North Little Rock. It is my understanding that you have replaced some of your warning sirens and have some of the older sirens as surplus. Per discussion between one of our firefighters, Chris Leggett, and your Director of Emergency Management, Leonard Montgomery, our sirens are of the same vintage as the ones you are replacing. Parts to repair our sirens and the skill to perform the maintenance are rapidly diminishing. We currently have two of our sirens inoperative and another only partially operative. Would you consider transferring three of your old sirens to the City of Cabot as a donation? This would bring our sirens back to operational status at a significant savings. If you have any questions, I am happy to answer them. Thanks a lot for your consideration; and, have an amazing day!

BILL CYPERT
